Our **vision** is that dance makes a difference to people's lives

Our **mission** is to be an outstanding community dance organisation

We achieve this through:

- Demonstrating the ability of dance to engage people of all ages, abilities and backgrounds
- Working in partnership with others to offer greater opportunities

## What we do

Our key programme strands are:

- **Projects** in education and community settings, particularly focusing on age (children, young people and older people) and disability, with over 1,000 sessions delivered annually.
- **Big Jigsaw**, our broad integrated dance programme including training, networking and collaborative projects.
- Dancefest regularly produces **performances**, particularly for outdoor and unusual spaces and places.
