

Dancefest's Reimagine Trail Guide

There are 29 photographs for you to find in the city centre. These are situated in three main cluster groups. Between them, the groups loosely encircle Dancefest's base at The Angel Centre in Angel Place.

This Trail Guide can be used to help you locate each photograph, give you its title and tell you who is in it. You can choose in what order you visit each cluster group. The guide, alongside our map will help you track down each image and discover parts of the city from a whole new perspective.

Due to COVID-19 restrictions, we can't perform live dance alongside the exhibition as we'd originally intended, so we're asking you to get creative instead and share what you come up with at **#ReimagineDancefest**

The guide will give you some ideas about how to do this or, make up your own!

STAY SAFE - Please be aware of other people and traffic when following the trail, getting creative and shooting your videos or photos. Please also remember to keep your activities within current Covid safety guidelines. Have fun!

The exhibition includes photos of Lorna Crofter, a big part of Worcester's community, who sadly lost her battle with cancer in September. Lorna was a friend and supporter of Dancefest and had taken part in many of its projects. Her photos are our tribute to Lorna.
